

Mayor's Report

CC Meeting March 10, 2026

1. Well 6 update. Well 6 is back on-line. All testing was good. We have a few minor issues with a couple of sensors but not unexpected for the amount of downtime. We will continue to run Well 6 for several weeks before we schedule Well 7 for its tank maintenance.
2. We had issues with the recent weather. It affected the power at Well &. We had TVEC come out and place a monitor on the line for 24 hours. Under not stress, the problem did not occur. We will continue to monitor.
3. City Council Workshop was held on February 18th, 2026. Many items were covered in a general discussion.
4. Worked with TRWA to review the water rates. Completed the study and held a special meeting to approve. This was completed quickly due to time constraints of qualifying for applications for grants that needed to be completed by March 6th.
5. We have received the Gradall excavator from PCT 4. It was delivered and we will be testing and learning the operation to begin using for some of our drainage work.
6. We have been notified that the first BVFD grant has been approved for reimbursement .
7. City Wide Clean-up will be March 21st. Backup date will need to be April 18th. This is due to Palm Sunday, Easter and the ballpark scheduling picture day on the 11th.

Overall, you can reach out to me anytime. Email is best. My email and phone number are on the website.
